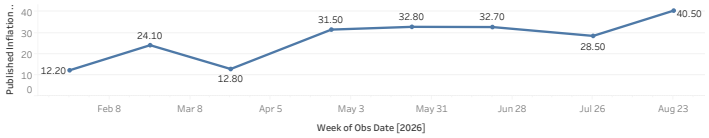
Consumer Price Index & Inflation Analysis | 2024-2026

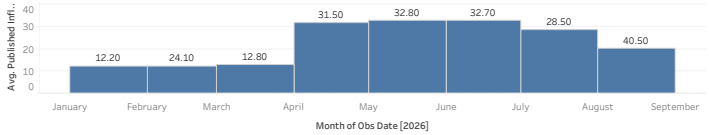
Average Inflation	Latest Inflation	Latest CPI Index
21.5	40.50	149.5

Botswana Consumer Price Index Trend (2024-2026)

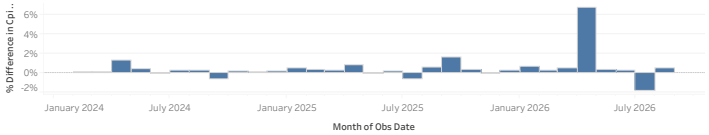
Botswana Annual Inflation Rate (2024-2026)



Average Inflation by Month



Month-on-Month Percentage Change in CPI



ECONOMIC INTERPRETATION

The Consumer Price Index provides an indication of changes in the general price level of goods and services in Botswana. An increase in the index indicates that the cost of the measured basket has risen relative to the base period. Examining monthly CPI movements alongside annual inflation helps identify changes in price pressures and the cost of living. These indicators are important for understanding household purchasing power and informing monetary and economic policy decisions.
